

LINGERIE WASHING IN 7 EASY STEPS!

1. FILL A SINK WITH COOL WATER.

2. ADD SOAP (SUCH AS FOREVER NEW) AS YOU ARE FILLING; SWISH THE WATER AND SOAP AROUND.

3. ADD YOUR LINGERIE. AS IN REGULAR WASHING YOU WANT TO WASH LIKE COLORS TOGETHER.

If it is the first washing of a new item, wash it completely separately, as some small amount of dye will probably come off the first time, and possibly stain your other items.

4. SWISH THE CLOTHES AROUND FOR A COUPLE OF MINUTES.

5. LET THEM SIT AND SOAK A MINUTE OR SO. THEN, SWISH THEM ONCE MORE FOR A MINUTE OR SO (DEPENDING ON THE NEED: USE YOUR OWN JUDGMENT), AS YOU PULL THE PLUG AND LET THE WATER DRAIN OUT.

6. WITH THE SOAPY WATER GONE, TURN ON FRESH WATER AND THOROUGHLY RINSE EACH ITEM, ONE BY ONE AS YOU TAKE IT OUT OF THE SINK. YOU CAN GIVE EACH ITEM A GOOD SQUEEZE TO GET EXCESS WATER OUT, BUT DO NOT TWIST IT LIKE A WASH CLOTH.

7. HANG THE ITEMS TO DRY, AS STRAIGHT AND FLAT AS POSSIBLE. LARGER ITEMS SHOULD BE LAID ACROSS A RACK, IF POSSIBLE, TO RELIEVE STRESS ON THE GARMENT AS IT DRIES. RESHAPE THE BRA CUPS TO THEIR NATURAL POSITION, IF NEEDED.

Absolutely never dry your lingerie in a clothes dryer, no matter what the setting (not even just "air dry"). The tumbling alone will damage the fibers, far beyond the care and protection you have provided them up to this point. Also, your "underwire" will become your "poking out wire".

The lingerie will usually be dry overnight if hung indoors. If you hang it outdoors, keep it out of direct sunlight.
